

Excavator Side Cutter with 4 Mounting Holes

This side cutter is designed for CAT E200 excavators. It features 4 mounting holes for secure attachment and is made from durable materials for wear resistance.

Product Overview

Heavy-Duty Excavator Side Cutter

This high-quality side cutter is engineered specifically for heavy-duty earthmoving and excavation tasks. Featuring a robust construction with 4 mounting holes, it ensures a secure and reliable attachment to your machinery. Designed for extended wear resistance, this component helps maintain optimal cutting performance and enhances overall machine productivity in demanding work environments.

Technical Details

Part Number	096-4748
Mounting Holes	4
Compatible Equipment	Excavators, Metal Forming Machines

Performance Features

Performance Highlights

- Extended wear resistance
- Secure 4-hole mounting
- Optimal cutting performance
- Enhanced machine productivity
