

Excavator Tooth Adapter

This adapter provides high wear resistance for increased production efficiency. It is hard, tough, and offers high fatigue resistance and reliability.

Overview

High-Performance Tooth Adapters

These heavy-duty tooth adapters are engineered for secure attachment in demanding excavation and loading applications. Constructed from high-strength materials, they provide a precise fit that optimizes force transfer and enhances digging capabilities. Designed to withstand harsh operating environments, these components help reduce maintenance frequency and equipment downtime.

Compatibility

Compatible Equipment

Excavators, Loaders, Bulldozers, Electrical Shovels

Technical Specifications

Available Configurations

Adapter Type	Typical Size Range
Standard Tooth Adapters	30mm - 100mm
Center Bolt-on (2 holes)	20mm - 45mm
Center Bolt-on (3 holes)	30mm - 45mm
Corner Bolt-on Adapters	16mm - 40mm

Mounting Styles

- Weld-on Bottom Strap
- Center Bolt-on (2-hole)
- Center Bolt-on (3-hole)
- Two Bolt-on Corner
