Product Overview

Industrial-Grade Track Link

This heavy-duty track link is precision-engineered to provide exceptional durability and resistance to wear for tracked machinery. Manufactured from high-strength steel, the component ensures reliable power transmission and smooth operation in demanding construction environments. Its robust design is optimized for heavy-duty applications, helping to extend service life and reduce maintenance downtime.

Performance & Quality

Certification

ISO9001:2000

Key Performance Features

Abrasion resistance, Crack resistance, High-strength steel construction

Guarantee

6 months

Compatibility

Supported Machinery Models

- P400-5
- PC400-6
- EX330
- Zax330
- T149
- T160
- T165
- D155
- D85
- D8K
- D8N
- D4D
