

Explosion-Proof Phillips Screwdriver

This explosion-proof Phillips screwdriver is designed for use in hazardous environments. It features a durable, non-sparking blade made from a special alloy steel.

Product Overview

Industrial Safety Solution

This explosion-proof Phillips screwdriver is specifically engineered for high-risk environments where flammable gases, vapors, or combustible dust are present. Constructed from a specialized non-sparking alloy steel, it ensures maximum safety during maintenance and assembly tasks in hazardous zones. The tool combines industrial-grade durability with an ergonomic, chemical-resistant handle designed for secure operation even while wearing protective gloves.

Technical Specifications

Material Composition	Non-sparking alloy steel
Tip Precision	Precisely machined for optimal engagement
Handle Features	Ergonomic, Chemical Resistant, Solvent Resistant, Non-slip

Compliance & Usage

Suitable Industries

- Oil and Gas
- Chemical Processing
- Mining
- Pharmaceuticals

Safety Certification

Explosion-Proof Certified • Non-Sparking
