

Explosion-Proof Three-Phase Asynchronous Motor

This explosion-proof motor is designed for use in hazardous environments. It features a robust construction with a cast iron frame and a top-mounted terminal box.

Product Overview

Industrial Explosion-Proof Solution

This three-phase asynchronous motor is engineered specifically for deployment in high-risk, hazardous industrial environments. Featuring a rugged cast iron frame and a protected top-mounted terminal box, it ensures both safety and durability. It is an ideal power source for demanding machinery within the chemical, petroleum, and mining sectors where explosion-proof performance is mandatory.

Core Specifications

Motor Type	Three-phase asynchronous motor
Construction Material	Cast Iron
Industry Applications	Chemical, Petroleum, Mining

Compliance and Safety

Explosion Proof Status
Ex-Certified
