

Explosion-Proof Wall-Mounted Exhaust Fan

This wall-mounted exhaust fan is constructed from high-strength metal and features an explosion-proof motor. It is designed for high-volume air extraction in factories, warehouses, and other commercial spaces.

Product Overview

Industrial Ventilation Solution

This wall-mounted exhaust fan is engineered for high-strength industrial ventilation, effectively addressing challenges such as high temperatures, dust accumulation, and poor air quality. Built with a robust metal construction, the unit features an explosion-proof motor designed for safe operation in hazardous environments where flammable materials may be present. Its space-saving, wall-mounted design and durable metal blades ensure reliable, long-term performance in factories, warehouses, and commercial spaces.

Technical Specifications

Material	High-strength metal
Mounting	Wall-mounted
Motor Type	Explosion-proof

Safety & Features

Suitable Environments

- Factories
- Warehouses
- Commercial spaces
- Hazardous environments

Key Safety Features

Explosion-proof motor, Protective grilles, Corrosion-resistant coating

Performance

Primary Functions

High-volume air extraction • Temperature control • Dust removal • Odor elimination
