Product Overview

Efficient Cordless Cleaning Solution

This cordless electric spin mop offers a lightweight and ergonomic design, making it an ideal tool for maintaining various floor surfaces like tile and wood. Featuring a powerful spin system reaching 120 RPM, it effortlessly removes stubborn stains while the integrated 300ml water tank allows for convenient spray mopping. With an adjustable handle length and long-lasting battery life, this device ensures a comfortable, time-saving cleaning experience without the restriction of cords.
