

# External 2.5" SATA Hard Drive Enclosure

This enclosure is designed to house and protect hard disk drives. It features a robust casing for durability, multiple interface ports for versatile connectivity, and an efficient cooling system to maintain optimal operating temperatures.

## Product Overview

### Compact Data Storage Solution

This external 2.5" SATA hard drive enclosure is designed to transform internal hard drives into portable, high-speed storage devices. Featuring a robust and durable casing, it offers reliable protection for your data while ensuring efficient cooling during operation. Its compact design makes it an ideal choice for professionals needing secure data backup, storage, and transport capabilities.

## Technical Specifications

Compatible Drive Size	2.5 inch
Interface Type	SATA

## Key Features

### Build Quality

Robust Casing • Durable Design • Compact Form Factor

### Primary Applications

- Data storage
- Data backup
- Portable transport

Cooling System	Yes
