

External Hard Drive Enclosure for 2.5-inch Drives

This mobile hard disk box delivers a solution for the removable storage of digital computer hard drives. The enclosure is designed for ease of use, protecting the hard drive and enabling data transfer.

Product Overview

Professional Portable Storage Solution

This external hard drive enclosure is designed for 3.5-inch SATA I and II hard disk drives, providing a reliable and durable solution for removable storage. Featuring a robust aluminum body, it ensures excellent heat dissipation and superior protection for your sensitive data. With its environment-friendly power-saving technology, this enclosure is an ideal choice for professionals requiring efficient and portable drive management.
