

Extra Heavy Duty Metal Jacket Battery

This is an extra heavy-duty battery with a metal jacket. It is designed for general purpose use.

Product Overview

Reliable Power for General Applications

These Extra Heavy Duty batteries feature a robust metal jacket design, ensuring durability for a wide range of general-purpose electronic devices. Engineered with a 0% mercury formulation, they provide a safe and reliable power solution for everyday household and professional equipment. Please note that these batteries are strictly non-rechargeable and should be handled according to standard safety guidelines to prevent leakage or damage.

Technical Specifications

Available Sizes

- R20G (Size D)
- R14G
- 6F22G (9V)
- R6G
- R03G

Voltage Ratings

1.5 V

Standard Voltage

9 V

High Capacity Voltage

Safety & Compliance

Environmental Compliance

0% Mercury

Safety Warnings

- Do not recharge
- Do not dispose of in fire
- Do not dissect
- Risk of explosion or leakage if misused
