

# Extrusion Machine Screw Barrels

These high-precision screw barrels are designed for single screw extrusion machines. They feature durable construction and an optimized design for efficient plastic processing.

## Overview

### High-Precision Screw Barrels

These high-precision screw barrels are engineered specifically for single-screw extrusion machines, ensuring durable construction and optimized performance. Designed for efficient plastic processing, they help manufacturers achieve consistent output and high product quality. The components are available in a range of sizes and configurations to meet diverse industrial extrusion requirements.

## Technical Specifications

### Diameter Range

**15 mm**

Minimum Diameter

**150 mm**

Maximum Diameter

### Extrusion Capacity

**5 kg**

Min Capacity

**1000 kg**

Max Capacity

### Length to Diameter Ratio (L/D)

16-40

## Compatibility

### Compatible Machinery

Single Screw Extrusion Machine
