

# F6L913 Diesel Engine Crankshaft

This crankshaft is designed for F6L913 diesel engines. Forged steel construction ensures strength and precision machining provides optimal balance.

## Product Overview

### F6L913 Diesel Engine Crankshaft

This high-performance crankshaft is precision-engineered specifically for F6L913 diesel engines. Manufactured from forged steel, it offers superior strength and durability for demanding environments. The component is precision machined to ensure optimal balance and reduced vibration during operation, featuring hardened bearing surfaces for extended service life and improved wear resistance.

## Technical Specifications

Part Number	02139148
Material	Forged Steel
Key Features	Precision Machined, Hardened Bearing Surfaces, High Durability, Vibration Reduction

## Application

### Suitability

- Heavy-duty applications
- Performance engine upgrades
- F6L913 series diesel engines
