

Facial Steamer with Inhaler

This facial steamer is designed for beauty treatments and respiratory relief. It features an extra-large mask, an inhaler attachment, and a measuring cup.

Overview

Dual-Purpose Wellness Device

This versatile facial steamer is designed to provide comprehensive spa-like facial treatments while doubling as a respiratory relief device. Featuring an extra-large mask for full-face coverage, it offers a comfortable and efficient experience for personal beauty routines. The integrated inhaler attachment makes it a dual-purpose tool, suitable for both skincare and respiratory care needs.
