

Facial Tissue Cube Box Packaging Machine

This automated machine is designed for packing facial tissue cube boxes. It ensures efficient and consistent packaging for optimized logistics and shelf presentation.

Product Overview

High-Efficiency Cube Box Packaging Solution

This advanced packaging machine is engineered for the automated handling of cube-style facial tissue boxes. Designed to support high-volume production, it ensures consistent packaging quality for standard tissue dimensions. The system is optimized for reliability and efficiency, making it an ideal asset for modern paper product manufacturing facilities.

Technical Specifications

Tissue Dimensions	200mm x 155mm
Cube Box Dimensions	250mm x 250mm

Packaging Configuration

Packaging Capacity

250 pulls

Pulls per bag

4 bags

Bags per pack

10 packs

Packs per carton

Packaging Details

- 250 pulls per bag
- 4 bags per pack
- 10 packs per carton

Compliance & Standards

Certifications	Industrial Standard, Automated Packaging
