

Farm Trailer

This agricultural trailer is suitable for transporting materials in farmland. The trailer is available in self-discharging and non-self-discharging configurations, with rear-unloading and side-unloading options.

ADDITIONAL IMAGES

Overview

The 7CX series features a durable steel construction and convenient tipping mechanism for efficient agricultural transport.

Reliable Agricultural Transport Solutions

The 7CX series farm trailers are engineered for high-performance agricultural hauling, offering load capacities ranging from 1 to 10 tons. Built in accordance with national standards, these trailers feature a robust steel frame and reinforced side panels to withstand demanding farm environments. Whether for transporting crops, livestock feed, or equipment, these trailers provide a versatile solution with both self-discharging and non-self-discharging configurations available.

Key Features

Construction Quality

- Reinforced steel cargo bed panels
- Corrosion-resistant finish
- Heavy-duty tandem axles
- Reliable braking system

Unloading Configurations

Self-discharging, Non-self-discharging, Rear-unloading, Side-unloading

Technical Specifications

Model Specifications Comparison

Model	Dimensions (mm)	Load Capacity (kg)	Dead Weight (kg)	Tire Type
7CX-3	3000*1600*460	3000	680	7.5-16/2
7CX-4	3120*1920*460	4000	910	8.25-16/2
7CX-5	3950*2190*550	5000	1700	8.25-16/4
7CX-6	4500*2150*550	6000	2050	9.00-16/4
7CX-10	6000*2150*550	7000	3000	8.25-16/8
