

Fastener Nuts

Fastener nuts are designed to be used with bolts to clamp materials together. They provide a strong and reliable connection for various applications.

Product Overview

Versatile Temperature Measurement Solution

This dual-function infrared thermometer is designed for precise temperature monitoring across a wide range of industrial and commercial applications. It combines non-contact infrared sensing for rapid surface readings with an integrated probe for accurate internal temperature assessment. Engineered for versatility, it is an essential tool for professionals in HVAC, automotive, and food service sectors.

Technical Specifications

Temperature Range

-20 °C

Minimum Temperature

520 °C

Maximum Temperature

Measurement Methods

Non-contact Infrared, Contact Probe

Applications

Suitable Industries

- HVAC Systems
- Automotive Maintenance
- Food Service
- Industrial Maintenance
