

Fiber Handle Claw Hammer

This claw hammer is equipped with a durable fiber handle, offering enhanced grip and reduced vibration. Its hardened steel head provides optimal strength and longevity for construction and demolition.

Overview

Professional Grade Claw Hammer

This claw hammer is engineered for durability and performance in demanding construction and demolition environments. Featuring a hardened steel head, it delivers the strength required for heavy-duty tasks while the specialized fiber handle significantly reduces vibration. Designed with ergonomics in mind, the handle ensures a secure grip and minimizes user fatigue during extended periods of operation.

Construction & Materials

Head Material	Hardened Steel
Handle Material	Fiberglass

Features

Key Features	Ergonomic Grip, Vibration Reduction, Nail Removal Claw, Hardened Steel
--------------	--

Performance

Primary Applications

- Construction
- Demolition
- Nail Removal
- General Carpentry
