Product Overview

High-Performance FTTP Drop Cable

This self-support drop cable is designed for reliable fiber-to-the-premises (FTTP) installations. It features a 2-fiber configuration utilizing G657A2 fiber standards, ensuring excellent signal integrity and flexibility. The cable is encased in a durable LSZH outer jacket, making it suitable for secure and compliant indoor and outdoor networking deployments.

Technical Specifications

Fiber Count	2
Fiber Standard	G657A2
Jacket Material	LSZH
Outer Jacket Color	Black

Logistics & Packaging

Reel Length

2000 m
Length

Packaging	Wood reel
Included Documentation	Test Report

Application

Key Features

- Self-support design
- FTTP drop cable
- Low Smoke Zero Halogen (LSZH) jacket
