

Fiberglass Tape Measure with ABS Case

This automatic fiberglass tape measure comes in a heavy-duty ABS case. It is designed for contractors and surveyors and features bold numbers for easy reading.

Product Overview

Professional Fiberglass Tape Measure

This high-performance tape measure is engineered for contractors and surveyors who demand reliability in the field. Constructed with fiberglass strands embedded in flexible PVC, it offers superior strength and flexibility while remaining safe for use around electrical hazards. The heavy-duty ABS case ensures durability, and the design facilitates easy cleaning of the tape after use.
