

Fingerprint and RFID Guard Tour System

This guard tour system employs fingerprint authentication for secure patrol management and accurate tracking. It features intelligent voice prompts and supports both 125kHz RFID tags and Bluetooth tags for versatile use.

ADDITIONAL IMAGES

Product Overview

The device features a built-in torch for low-light patrolling and a fingerprint scanner for secure authentication.

Advanced Guard Patrol Management

This professional-grade guard tour system integrates biometric authentication with RFID technology to ensure accountability and eliminate 'buddy punching.' Featuring intelligent voice prompts and a ruggedized design, it provides a reliable, scientific approach to managing security personnel. The system is highly adaptable, supporting either standard 125kHz RFID tags or Bluetooth-enabled tags to suit various operational environments.

Key Features

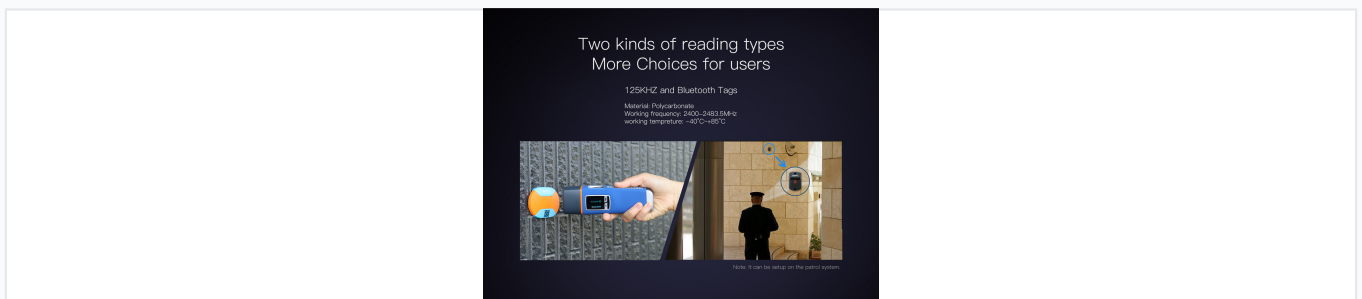

Biometric verification ensures that the actual guard is present at the checkpoint, preventing unauthorized data entry.

Core Capabilities

Fingerprint Authentication, Intelligent Voice Prompts, Ruggedized Construction, Real-time Data Logging, Integrated LED Torch, Bluetooth Connectivity Option

Technical Specifications

Built from durable polycarbonate, the device is designed to operate in extreme temperatures ranging from -40°C to +85°C.

Technical Data

Parameter	Value
Housing Material	Polycarbonate
Operating Frequency	2400-2483.5 MHz
Operating Temperature	-40°C to +85°C
Tag Compatibility	125kHz RFID or Bluetooth

System Capabilities

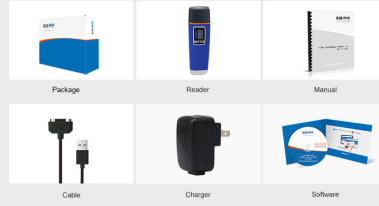

The management software allows for flexible scheduling, including hourly, daily, and monthly patrol plans.

Patrol Scheduling Options

- Hourly scheduling
- Daily planning
- Monthly cycles
- Yearly configurations
- Customized special rest days

Package Contents

Guard Tour System Complete Kit WM-5000X1

The complete package includes the reader, charger, data cable, and software required for immediate deployment.

Standard Kit Components

- Guard Tour Reader
- Charging Station
- Data Transfer Cable
- Instruction Manual
- Software Suite
