

Firewood Processor with Circular Saw

This firewood processor is equipped with a robust circular saw for efficient log cutting. Its mobile chassis and safety guard enhance usability and safety during high-volume firewood production.

Overview

High-Efficiency Firewood Processing

This heavy-duty firewood processor is engineered for high-volume production, featuring a robust circular saw designed for precise and efficient log cutting. Built with durability in mind, the machine includes a mobile chassis with wheels, allowing for easy transportation across work sites. Its user-friendly design ensures streamlined operation, making it an ideal choice for professional firewood production needs.

Technical Specifications

Design Highlights

- Mobile chassis with wheels
- High-volume capacity
- Green and orange color scheme

Cutting Mechanism	Circular Saw
Mobility	Yes
Safety Features	Safety Guard
Construction	Heavy-duty
