

Five-Blade Ceiling Fan with Light Kit

This ceiling fan features five wooden blades and an integrated lighting fixture. The fan's clockwise switch in summer creates a wind chill effect, offering a perceived temperature reduction.

Product Overview

Elegant Five-Blade Ceiling Fan with Integrated Lighting

This sophisticated ceiling fan features five wooden blades paired with an integrated lighting fixture, complete with multiple amber-colored glass shades. Designed with a dark bronze finish on the motor housing and downrod, it provides both aesthetic appeal and functional airflow. The unit includes convenient pull chains for manual control of fan speed and lighting, making it a versatile addition to any interior space.
