

Flake Ice Production Machine

This flake ice machine provides a robust and efficient solution for producing flake ice. The machine is designed for continuous operation, ensuring a consistent supply for diverse applications.

Zhejiang Qingfeng Refrigeration Equipment Manufacturing Co., Ltd

Product Overview

Professional Flake Ice Solution

This flake ice production machine is designed to meet the rigorous demands of supermarkets, shopping malls, and hospitality environments. It produces dry, smooth flake ice with no sharp edges, ensuring that frozen goods remain undamaged and retain their original flavor. Engineered for reliability, the unit arrives pre-tested and ready for immediate installation, requiring only simple water and power connections.

Applications

Suitable Industries

Supermarkets, Shopping Malls, Hotels, Laboratories, Health Care

Technical Features

Ice Characteristics

- Dry texture
- Smooth surface
- No sharp edges
- Protects frozen goods

Construction

- Stainless steel cylindrical ice generator
- Sturdy mounting frame

Installation & Logistics

Setup Requirements

Pre-tested at factory; requires only water pipe and power connection.

Packaging

Air bubble film inner layer with wooden box exterior.
