Overview

Industrial Protection

This single-layer Nomex coverall is engineered for industrial workers exposed to heat, offering inherent flame resistance. It provides critical protection against brief flame contact, as well as convective and radiant heat. Designed for durability and utility, the garment features multiple storage pockets and high-visibility reflective tape for added safety in low-light environments.

Material Composition

Fabric Blend	93% Meta Aramid, 5% Para Aramid, 2% Antistatic
Fabric Weight	200 gsm

Design & Features

Closure System

- Two-way metal zipper
- Metal snap cuff closure

Visibility

High visibility FR reflective tape

Pocket Configuration

Location	Details
Chest	2 pockets with flap
Sleeves	1 pen pocket
Side	2 concealed access pockets
Back	2 pockets with flap & Velcro

Maintenance
