Product Overview

High-Performance Agricultural Bearing Units

These flange-mounted bearing units are engineered specifically for the demanding environments of agricultural machinery. Designed to provide reliable rotational support, these units feature robust housings with secure mounting options, ensuring stability in equipment like tillers, planters, and harvesters. Each unit is pre-lubricated and sealed to effectively resist contamination from dust, dirt, and moisture, promoting long-lasting performance and reduced maintenance downtime.

Technical Specifications

Suitable Applications

- Tillage equipment
- Planters
- Harvesters
- Tractors

Key Features

Pre-lubricated, Sealed Design, Corrosion-resistant Finish, Square Bore, Robust Housing

Compatibility List

Compatible Part Numbers

Part Series A	Part Series B
GW209PPB11	W208PPB7
GW209PPB4	W208PPB10
GW210PP3	W208PPB23
GW210PPB5	W209PPB4
GW210PPB2	W210PP8
GW210PPB9	W210PPB2
GW211PPB13	W211PPB2
GW211PPB14	W214PPB2
GW211PPB8	W211PP2
GW211PPB2	W214PP9
GW211PPB10	W208PPB13
GW214PPB6	W208PPB6
GW214PPB2	W208PP6
GW214PP2	W208PPB8
GW208PPB6	W208PP5
GW208PPB5	W208PP20
GW208PPB17	W209PPB5
GW209PPB5	W210PP4
GW211PPB4	W211PPB3
GW211PP3	W211PP5
GW211PP17	W208PPB11
GW214PPB4	W208PPB12
