

Flanged Ends Globe Valve ANSI Standard

This globe valve with flanged ends is engineered according to ANSI specifications. It is designed for industrial settings where consistent flow management is essential.

Product Overview

ANSI Standard Flanged Globe Valve

This industrial-grade globe valve is engineered for precise flow control in demanding piping systems. Designed in strict accordance with ANSI B16.10 for face-to-face dimensions and ANSI B16.5 for flange standards, it ensures seamless integration and reliable performance. The robust construction makes it suitable for a wide range of industrial applications requiring consistent operation.

Technical Standards

Design Standards	ANSI B16.10, ANSI B16.5
Pressure Rating	150 lb

Dimensions

Main Overall & Connecting Dimensions

DN	d (mm)	L (mm)	H (mm)	W (mm)
2"	51	203	410	200
2 1/2"	64	216	431	200
3"	76	241	450	250
4"	102	292	500	250
5"	127	356	525	350
6"	152	406	550	350
8"	203	495	620	400
10"	254	622	800	450
12"	305	698	1230	500
