

Flanged Tee Pipe Fitting

This pipe fitting connects three pipes. It features flanged ends for easy assembly and secure connections.

Product Overview

All Flanged Tee Fitting

The All Flanged Tee is a robust pipe fitting designed for connecting three pipe sections within industrial piping systems. Featuring flanged ends on all ports, it ensures a secure, leak-proof assembly that is easy to install and disassemble for maintenance. This component is engineered to meet international standards, making it a reliable choice for demanding infrastructure and industrial applications.

Technical Standards
