

Flat Indoor TV Antenna

This flat indoor TV antenna features integrated circuitry within a thin profile. It is designed for ease of positioning to optimize signal reception.

Product Overview

High-Performance Indoor Reception

This ultra-thin indoor TV antenna is engineered with high-tech circuitry to provide reliable access to local VHF and UHF signals. Designed for both aesthetic appeal and performance, it supports Full HD digital broadcasting with ease of positioning. The unit includes a detachable amplifier and versatile mounting options to ensure optimal signal strength in various indoor environments.

Technical Specifications

Frequency Range

- VHF: 174-230MHz
- UHF: 470-862MHz

VSWR

Band	Max VSWR
VHF	<3.1
UHF	<2.0

Noise Figure: 3.5 dB

Impedance: 75 Ω

Power and Performance

Output Level

105 dBuV
Output Level

Power Input: DC 5V/550mA

Installation

Key Features

Full HD Support • Detachable Amplifier • Ultra-Thin Design • Plug-and-Play

Positioning Options: Wall Mount, Window Mount, Optional Base
