

Flatbed Trolley Cart with Swivel Casters

This flatbed trolley is designed for transporting heavy items in warehouse, industrial, or commercial settings. It features a wooden platform, supported by a black metal frame and four swivel casters, and includes a handle for maneuverability.

Product Overview

Professional Flatbed Trolley

This flatbed trolley is engineered for efficient material handling in warehouse, industrial, and commercial environments. Featuring a robust wooden platform supported by a durable black metal frame, it provides a stable base for transporting heavy items. Equipped with four swivel casters, the design ensures superior maneuverability and ergonomic control for operators.
