

Flatbed Truck with Side Rails and Ladder Rack

This flatbed truck is equipped with side rails and a ladder rack for secure cargo management. It is designed for transporting materials and equipment.

Product Overview

Professional Utility Flatbed Truck

This versatile flatbed truck is engineered for the efficient transport of diverse materials and industrial equipment. Featuring a robust blue flatbed, integrated side rails, and a rear ladder rack, the vehicle offers secure loading and organizational capabilities. The addition of a protective frame behind the cab ensures driver safety during heavy-duty transit operations.

Design and Safety

Safety Compliance	Safety Stripes, Protective Cab Frame, Ladder Rack, Side Rail Containment
Visual Safety Markings	Red and white reflective safety stripes on undercarriage
