

Flexible Elastic Grinding Disc for Stainless Steel

This flexible grinding disc is designed for stainless steel applications. It measures 4 x 1/8 x 5/8 inches and is suitable for use with angle grinders and similar power tools.

Product Overview

High-Performance Grinding Solution

This flexible elastic grinding disc is specifically engineered for precision work on stainless steel surfaces. Designed for compatibility with standard angle grinders, it balances aggressive material removal with the ability to achieve a smooth, refined finish. Built to meet safety standards, this disc ensures reliable performance in demanding metalworking environments.

Physical Specifications

Diameter	100 mm
Thickness	3 mm
Bore Size	16 mm

Performance Metrics

Max Operating Speed

13700 RPM

Max R.P.M.

72 m/s

Max Peripheral Speed

Tool Compatibility

- Angle Grinders
- Compatible Power Tools

Suitable Materials

Stainless Steel

Compliance and Standards

Safety Standards

EN12413
