Overview

High-Efficiency Floating Feed Production

This industrial-grade floating fish feed pellet extruder is designed to meet the rigorous demands of aquaculture farms and manufacturing plants. Engineered for high productivity, the system produces consistent, high-quality floating pellets ranging from 2mm to 12mm in size, ensuring optimal nutrition and digestibility. With a robust construction and advanced extrusion technology, this machine provides a reliable, long-term solution for on-site feed production.

Key Selling Points

High Productivity, Floating Feed Production, Industrial Grade

Technical Specifications

Model Specifications

Model	Main Motor (kW)	Capacity (ton/h)
DSP90-B	37	0.6-0.7
DSP120-B	55	0.7-0.85
DSP135-B	75	1.0-1.2
DSP160-B	90	1.8-2.0
DSP200-B	132	2.0-4.0

Pellet Size Range

2-12mm

Voltage

380V

Physical Attributes

Dimensions (L*W*H)

1600*1100*1500mm

Machine Weight

920 kg

Compliance & Support

Certifications

ISO • CE

Support Services

- Video technical support
- Online support
- Spare parts
- Field maintenance and repair service

Warranty

2 years
