

Floor-Standing Home Audio Speakers with Multi-Driver Configuration

These floor-standing speakers are designed for home audio systems. They feature a multi-driver configuration, including a mid-range driver, dual tweeters, and a side-mounted woofer.

Product Overview

High-Fidelity Floor-Standing Audio

The EM-2081FT floor-standing speaker system is engineered for immersive home audio performance, delivering a robust 80W output. Featuring a sophisticated multi-driver configuration, these speakers combine deep bass reproduction with clear high-frequency output for a balanced soundstage. Designed with versatility in mind, the unit integrates essential connectivity options including Bluetooth, USB playback, and AUX inputs, making it a comprehensive solution for modern home entertainment setups.
