

Floor-Standing Home Theater Speakers

These floor-standing speakers are designed for high-fidelity audio reproduction in home entertainment systems. The speakers feature a multi-driver configuration and a wood-grain finish.

Product Overview

High-Performance Home Theater Audio

The EM-2181FT floor-standing speaker system is designed to deliver a robust 80W output, making it an ideal choice for immersive home entertainment setups. With a versatile multi-driver configuration including 6.5-inch and 3-inch drivers, it provides clear, balanced sound reproduction. The system supports multiple input methods including Bluetooth, AUX, and USB, ensuring seamless connectivity with various audio sources.
