

Floor Standing Split Air Conditioner

This split air conditioner system includes a floor-standing indoor unit and a separate outdoor compressor. It is suitable for providing cooling and ventilation in residential or commercial environments.

Overview

Versatile Climate Control

This floor-standing split air conditioner provides a powerful cooling and ventilation solution for a variety of indoor environments. The system features a space-efficient vertical indoor unit paired with a durable outdoor compressor for consistent performance. It is engineered to meet the demands of both residential living areas and professional commercial spaces.

Performance

Primary Functions	Cooling, Ventilation
-------------------	----------------------

Design & Construction
