

Fluid Meter for Liquid and Gas Measurement

This meter is designed for measuring the flow rates of both liquids and gases. It provides accurate readings for process monitoring and control.

Product Overview

Professional Fluid Metering Solution

This versatile fluid meter is engineered for precise measurement of both liquid and gas substances. Designed with efficiency and durability in mind, it features a robust stainless steel construction suitable for high-performance environments. Its ergonomic design ensures ease of use and safety, providing reliable performance across various heating applications.

Technical Specifications

Safety Features

- Lever-operated whistle
- Heat-resistant ergonomic handle
- Dry-boil prevention

Body Material	Polished Stainless Steel
Compatible Stovetops	Gas, Electric, Induction
