

# Fluid Meter for Liquid and Gas Measurement

This meter is designed for measuring the flow rates of both liquids and gases. It provides accurate readings for various industrial applications.

## Product Overview

### Precision Fluid Measurement

This fluid meter is engineered for accurate measurement of both liquid and gas substances. Designed for professional industrial applications, it offers reliable performance and consistent data tracking. Its robust construction ensures durability in demanding operational environments.

## Technical Specifications

Measurement Capability	Liquid, Gas
Device Category	Fluid Meter
