Fluid Storage Tank with Mounting Bracket

This durable tank is designed for fluid storage in automotive or industrial settings. It features a metallic filler cap, a cylindrical port, and a mounting bracket for secure installation.

Product Overview

Industrial Fluid Storage Solution

This high-durability fluid storage tank is designed for demanding automotive and industrial applications. Built from robust painted metal, it provides reliable corrosion resistance and structural integrity. The unit comes equipped with an integrated mounting bracket, ensuring a secure and stable installation in professional environments.

Technical Specifications

Material	Painted Metal
Surface Treatment	Yes
Key Features	Metallic filler cap, Cylindrical side port, Mounting bracket included

Application

Suitable Industries

- Automotive
- Industrial Fluid Handling
