

Fluid Transfer Water Pump

This is a water pump. It is used for fluid transfer.

Product Overview

Professional Fluid Transfer Solution

The 40-5TB Fluid Transfer Water Pump is a robust solution designed for efficient fluid management. Powered by an IE40F-7 engine with 1.25KW output, this pump offers reliable performance for demanding tasks. It features a compact design with a weight of 10kg, making it highly portable and suitable for various field applications where water transport is required.

Technical Specifications

Maximum Power

1.25 KW
Max Power

6500 R/MIN
Engine Speed

Displacing Capacity

42.7 CC

Performance Metrics

Performance Data

Metric	Value
Max Lift	30
Flow Rate	8
Suction Length	8

Dimensions and Weight

Physical Characteristics

- Water Outlet Diameter: 25mm
- Net Weight: 10kgs
- Gross Weight: 10kgs
- Package Size: 400x330x390mm

Identification

Model Identification

40-5TB
