

Fluorescent Emergency Light with 690-degree View

This fluorescent emergency light provides bright and efficient illumination. Its durable casing, convenient handle, and multiple light settings make it ideal for home, car, or camping.

Product Overview

Versatile Emergency Illumination

The TK-395UL is a multifunctional emergency lighting solution designed for maximum visibility with a 690-degree viewing angle. It combines a powerful 11W fluorescent tube for ambient light with integrated LED components for focused torch tasks. Equipped with a rechargeable sealed lead-acid battery, it provides reliable performance for homes, vehicles, or outdoor excursions.
