

Fluorescent Emergency Light with Rechargeable Battery

This emergency light features a fluorescent tube for bright and efficient illumination. It is designed with multiple lighting modes for adjustable brightness and includes a built-in rechargeable battery.

Product Overview

Reliable Emergency Illumination

The Fluorescent Emergency Light provides a dependable lighting solution for power outages, emergency scenarios, and outdoor activities. Featuring a robust design with a built-in rechargeable battery, this light offers a portable and efficient way to maintain visibility when traditional power fails. Its durable build ensures long-lasting performance in various demanding environments.

Technical Specifications

Light Source Type	11W PL Tube + 20 LED diodes
LED Brightness	1500 mcd
Beam Angle	110 degrees

Power and Battery

Battery Type	6V 4AH Sealed Lead-Acid
Rechargeable	Yes

Logistics and Packing

Packing Details

Item	Quantity/Data
Units per Carton	10 Pcs
Container Capacity	5000 Pcs (20'FT)
Carton Dimensions	56 x 34.5 x 29.5 cm

Features

Key Highlights	Emergency Ready, Portable Handle, Rechargeable, Dual Light Source
