

Foldable Electric Bicycle with 12-Inch Wheels

This foldable electric bicycle has a brushless motor and lithium battery. Weighing only 19kg with 12-inch tires, it is easy to carry and provides both pure battery and foot power options.

Product Overview

The efficient folding mechanism allows for easy storage in small apartments or car trunks.

Eco-Friendly Urban Mobility

This 12-inch foldable electric bicycle is designed for the modern commuter, offering a lightweight 19kg frame that is easy to carry and store. Equipped with a high-efficiency brushless motor and a durable lithium battery, it provides a green transportation solution with a range of up to 80km using pedal assist. Its compact folding mechanism makes it an ideal choice for multi-modal travel and limited storage spaces.
