Overview

Transform Your Mobility

This foldable electric handcycle attachment seamlessly converts your standard manual wheelchair into a powerful, motorized mobility device. Engineered with a robust 500W brushless motor and a durable aluminum alloy frame, it offers the freedom to navigate diverse terrains, from paved city streets to gravel and grass. With its intuitive folding design, compact storage, and easy-to-use controls, this attachment provides enhanced independence and extended travel range for users seeking a reliable mobility upgrade.

Performance & Power

Powerful motor capable of climbing slopes up to 10 degrees independently.

Motor Power

500 W

Rated Power

Maximum Speed

25 km/h

Max Speed

Climbing Capability

Up to 10 degrees

Technical Specifications

MOTOR

Brushless geared hub motor for power supply. Brushless motor has high reliability, good stability and strong adaptability, simple maintenance and maintenance. It has more power, faster speed and stronger climbing force than ordinary motors.

Battery

High quality lithium battery. Technology giving you the best performance possible. High quality batteries are designed to deliver the most reliable and long lasting power. We will give away the charger

Front light

LED bright light helps you ride smoothly when you are in the night.

Installation Instructions

Instruction

Installation

1. Put in your wheelchair and near the handlebars.
