

Foldable Electric Scooter with Adjustable Handlebar

This electric scooter has a durable frame and folds for storage and portability. It offers front and rear suspension, pneumatic tires, and an adjustable handlebar.

Product Overview

Compact Urban Mobility Solution

This foldable electric scooter is engineered for efficient urban commuting, featuring a robust steel frame and an adjustable handlebar to accommodate various rider heights. With a 350W motor and a 30km maximum range, it provides a reliable transport solution for short-to-medium distances. The design prioritizes portability and ease of storage, making it an ideal choice for professional environments and daily personal use.
