

Foldable Engine Stand with Adjustable Mounting Arms

This heavy-duty engine stand is designed for supporting and rotating engines during repair or assembly. Constructed from high-strength steel, it features a foldable design for compact storage and adjustable mounting arms to accommodate various engine sizes.

Overview

Professional Engine Support Solution

This heavy-duty engine stand is engineered to provide reliable support and 360-degree rotation for engines during repair or assembly tasks. Featuring a unique foldable design, it maximizes workspace efficiency by allowing for compact storage when not in use. Constructed from high-strength steel, this stand ensures long-lasting durability and stability for professional mechanics and automotive workshop environments.

Key Features

Key Features

- Space-saving foldable design for compact storage
- Adjustable mounting arms for various engine sizes
- Heavy-duty steel construction
- Swivel casters for enhanced maneuverability
