

Foldable Hand Trolley

This compact hand trolley folds for easy storage and transport. It has an adjustable height and can carry loads up to 100kg.

Product Overview

Compact Logistics Solution

This foldable hand trolley is designed for efficiency and ease of use in professional environments. Featuring a lightweight construction of just 4.5kg, it offers a surprisingly robust load capacity of 100kg. Its adjustable design allows the height to extend from 765mm to 990mm, making it a versatile tool for various material handling tasks.
