

Foldable Handle Handheld Garment Steamer

This handheld garment steamer provides a convenient wrinkle removal solution. Its foldable handle enhances portability and storage.

Product Overview

Compact Versatility for Garment Care

The Model 316A handheld garment steamer is designed for efficiency and portability, making it an ideal solution for refreshing clothing, bedding, and curtains. Its high-steam output effectively softens and removes wrinkles across a variety of fabrics. Featuring a foldable handle and a compact design, this steamer is easy to store and transport, perfect for both home use and travel.
