

Foldable Solar Charger Wallet

This solar-powered wallet features two solar panels for efficient charging. It includes a charging cable and adapter tips, making it compatible with various devices.

Product Overview

Portable Solar Charging Solution

This foldable solar charger wallet provides a convenient, off-grid power solution for mobile devices. Featuring a dual-panel design, it efficiently converts sunlight into usable energy, making it an ideal companion for outdoor activities or emergency preparedness. The compact, wallet-style form factor ensures easy portability, while the included multi-adapter kit ensures compatibility with a wide range of electronic devices.
