

Foldable Steel Saw Horse with Non-Slip Surface

This heavy-duty saw horse features a robust steel frame with a powder-coated finish, ensuring durability and resistance to corrosion. It folds flat for compact storage and includes a carrying handle for easy transport.

Product Overview

Professional Foldable Saw Horse

This heavy-duty foldable metal saw horse is engineered for reliable material support during cutting, sawing, and various workshop tasks. Constructed with a robust steel frame and a powder-coated finish, it offers excellent durability and corrosion resistance for long-term use. The foldable design allows for compact storage and easy transportation, making it an ideal choice for both professional job sites and home workshops.
