

Folding Bicycle with Shimano 6-Speed Transmission

This folding bicycle features a high-strength steel frame and a reinforced seat. Equipped with a Shimano 6-speed transmission and alloy V-brakes, it offers reliable performance.

Overview

Compact Urban Mobility

The YRT060 folding bicycle is engineered for seamless urban commuting and efficient space management. Its compact design features a quick-collapsing mechanism, allowing the unit to be folded for easy storage in tight spaces or transit. Equipped with a reliable 6-speed drivetrain, this model provides versatile performance for navigating diverse city environments.
